

PSA OXYGEN GENERATOR

The SCS oxygen system, an on-site PSA oxygen generator, is specifically designed to meet your remote oxygen needs. SCS can supply this series of oxygen systems with capacities up to 2000 SCFH (56Nm³/h), which can be customized with PLC touchscreen or remote cloud operation/data logging.

For smaller needs, SCS can supply portable oxygen systems, ranging in capacity from 9 LPM to 16 LPM. All systems are manufactured and tested in our facility in Sparta, Michigan, USA.

FEATURES

- Medical Grade Oxygen Directly from Compressed Air.
- High System Efficiency with Low Operating and Maintenance Cost.
- Time-Proven Process Technology and Key Components, Top Quality Pneumatic Control Valves are Used, Reducing Possible Gas Leakage.
- PLC Process Control - Automatic and 24-Hour Unattended Operation
- Touch Screen HMI Central Control System can Control and Monitor All Running Data of the System, Warning Alarm, Alert for Routine Maintenance, even Remote Control Operation.
- All Process Valves of the System are integrated into a Standard Cabinet, Reducing the Running Noise of the System.
- All SCS Oxygen Systems are manufactured and strictly tested and UL approved.
